

STOOL V1

One of Grythyttan Stålmöbler's earliest products is Stool V1, designed by Artur Lindqvist. It was originally made for workshops where heavy wear and heavy strain were reality. Now it is back in production in two different heights; 45 cm which is normal seat height and 63 cm which is bar height. Seat in plantation teak and base in hot galvanized steel.

STOOL V1 45
Untreated teak
with hot galvanized base
No. 10411

STOOL V1 63
Untreated teak
with hot galvanized base
No. 10413
