

Hwyl Eau de Parfum

A stirring and intriguing fragrance

Formulated in partnership with French perfumer Barnabé Fillion, who also collaborated on Marrakech Intense, Hwyl Eau de Parfum is inspired by the Japanese Hiba trees, and the country's lush temple moss gardens.

Hwyl Eau de Parfum recaptures the feeling of solitude and refuge in nature, and stimulates the olfactory senses with an eclectic array of potent botanical extracts," said Mr Fillion. Hwyl's smoky introduction folds in aromatic spices and fresh Thyme Extract.
