

## Maja D | Indoor - Outdoor

design Piero Lissoni

Armchair available for indoor and outdoor.

**Indoor:** tubular steel frame, with black epoxy powder coating, (version without housse and with housse) or gunmetal color (version with short housse). Seat chassis in poplar plywood with cross-woven coated rubber elastic straps.

Seat and backrest padded with insert in polyurethane foam. Covering in 100% polyether thermally bonded onto a polyamide velveteen backing, fixed through Velcro fastenings to the seat chassis in the versions with housse. Upholstery zipped to the polyether covering for the version with housse only and fully removable by zippers and Velcro fastenings. For the version without housse, upholstery fully removable by zippers after unscrewing the seat chassis from the frame.

Upholstery in leather (version without housse only) or fabric.

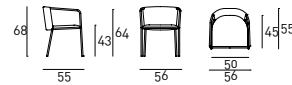

**Outdoor:** available only for version without housse.

Frame in tubular AISI 316 stainless steel matt satin-finish.

Seat panel in marine plywood with cross-woven coated rubber elastic straps. Seat and backrest padded with open cell structure polyurethane foam FILTREN®T.

Upholstery with outdoor fabrics only, fully removable by zippers after unscrewing the seat panel from the frame.

Seat depth 45cm.

With housse
