DESCRIPTION

Icelandic designer Katrín Ólína has collaborated with Made by Choice to create home products that celebrate reading. Reading Horse is a small portable Bookshelf. It is a simple construction of two 35mm bent laminated plywood tubes held together by two bars. In Icelandic, a reading horse is someone who loves to read. Books are portals to other worlds. Icelandic culture has its roots in literature and Icelanders are avid readers and book lovers. Around 10% of the population will publish a book in their lifetime.
