

# Potence

Jean Prouvé, 1950

**vitra.**

## Potence

---

Designed as a pivoting wall lamp for the 'Maison Tropicale', Potence is regarded as one of Jean Prouvé's puristic masterpieces. The fascination of this luminaire, which is over two metres long and dimmable, stems from the spareness of its materials and forms.

### Materials

- **Material:** powder-coated tubular steel, beech wood, cord dimmer, 1 lamp included.
